CS06 Body Camera

👁️ Camera Specifications:

- **Sensor Resolution:** 2MP (HD 1090p)
- **Lens Angle:** 120°-180° wide-angle
- **Night Vision:** Infrared LEDs for night recording
- **Video Format:** AVI/MP4
- **Photo Format:** JPG

🔊 Audio Features:

- **Built-in Microphone:** High-sensitivity mic with noise reduction
- **Speaker:** Integrated loudspeaker for playback

💾 Storage & Power:

- **MicroSD card** up to 64GB (not included)
- **Rechargeable** 1000mAh lithium-ion
- **Recording Time:** Up to 4-5 hours
- **Charging Time** via USB

🔧 Build & Interface:

- **Display:** 1.5-2.0 inch LCD
- **Buttons:** Playback, OK/Record, Navigation keys
- **Ports:** USB 2.0 for data transfer and charging
- **Material:** Durable ABS plastic body

😊 Functionality

- **Mounting Clip:** Starts recording when motion is detected
- **Loop Recording:** Automatically overwrites oldest when storage full
- **Vibration Feedback:** for legal operation alerts

High-Definition Camera Watch

High-Definition Video Recording

Offers 1688p or 720p video quality, ensuring clear footage for surveillance or documentation.

Fully Functional Timepiece

Works as a real wristwatch, maintaining the disguise and dual purpose functionality.

Expandable Memory / Internal Storage

Comes with built in storage (e.g. 960, 16GB, 32GB) for saving recordings, sometimes

USB Connectivity

Easily connect to a PC/ laptop for file transfer and charging via USB,

Built-in Hidden Camera Lens

The camera is stealthily integrated into the watch face or dial—undetectable to others.

Long Battery Life

Rechargeable battery with 60–120 minutes of continuous recording time, standby can last longer.

One-Touch Operation

Simple discreet button control for starting/ stopping recording without drawing attention.

Night Vision (Optional)

Some models include infrared or night recording capability for night-time use.

1080p Full HD & 720p Recording

Supports both resolutions for video; 1080p at 30fps and 720p at 60fps.

Miniature Design

Ultra-small cube size makes it easy to hide or mount in tight spots.

Infrared Night Vision

Equipped with IR LEDs to record in total darkness (short range).

Loop Recording Mode

Begins recording automatically when movement is detected.

Loop Recording

Overwrites the oldest files automatically when the storage is full.

Photo Capture Function

Can also take still images in addition to video.

HD Video Recording (720p/1080p)

Captures clear footage suitable for home, office, or on-the go surveillance.

Wide-Angle Lens

Offers broader field of view (often 120°–150°) to cover more area.

Motion Detection

Automatically starts recording when movement is detected.

Loop Recording

Recycles storage space by overwriting old footage once the memory is full.

Infrared Night Vision

Captures low-light footage using invisible IR LEDs.

Portable & Lightweight

Compact enough for body-worn use, travel, or mounting anywhere.

Built-in Battery

Rechargeable via micro-USB or Type-C (often lasts 60–120 minutes).

Support for MicroSD Card

Typically supports up to 32GB or 64GB for extended video storage.

MINI SPY CAMERA

KK SECURITIES SYSTEM

Key Features:

- Compact & Portable wit-built in clip
- 1080P Full HD Video
- Night Vision- Equippt vrodable wien owindecdded
- Motion Betection
- Loop Recording
- Built-in Microperation
- Rechargeaable Battery approx. 90° field of view
- Wide-Angle Lens approx. 90° field vfof

Specifications:

- Model: Mini Clip Cam 1080P
- Resolution: 1920x1080 (FulHD)
- Video Format: AVI
- Storage: MicroSD card (Class 10 recommended)
- Battery Capacity 300-500 mAh
- Charging Time: ~2 hours
- Weight: ~30g

Applications:

- Personal Security
- Law Enforcement & Body Camera Use
- Home / Office Surveillance
- Vehicle Dash Recording
- Interview & Lecture Recording
- Pet or Nanny Monitoring

🔍 Covert Switch Board Camera

Discreet Surveillance Solution

KEY FEATURES:

Full HD 1080p Camera

Sharp and clear video quality

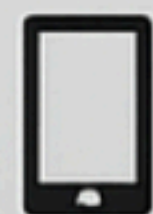

App-Controlled

Manage settings remotely

Invisible Lens Placement

Lens hidden behind switch panel

Local & Cloud Storage Options

Supports up to 128GB microSD

Wi-Fi Connectivity

Live stream via smartphone
